

AWB's strength lies in its ability to leverage the resources from partner institutions and from expert consultants who act as volunteers, so that:

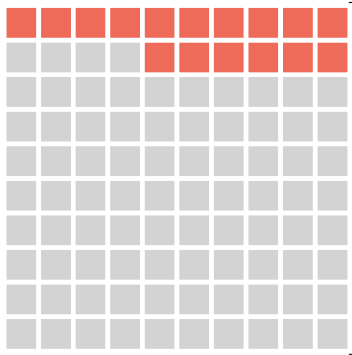

**Every dollar from donations has a six-fold impact.**

How do we know? We estimated the true project value of 11 recently completed projects by attributing a value to our volunteers' work on a reasonable daily rate.

**Donations** pay for the administrative costs of running the projects. On average, they account for 16% (\$5'638) of the estimated true value of a project (\$34'646).

**Donation funded:**

- Airfare & travel expenses
- Health insurance & emergency travel info services
- Accommodations & meals
- Project administration & overhead

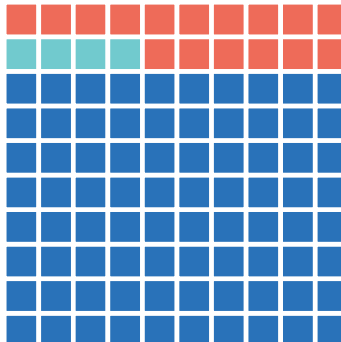

True value of a project  
■ = 1% of average project value

The remaining 84% of the value of the projects is provided by in-kind contributions of **AWB volunteers** (\$27'707) and **partner universities** (\$1'301).

**Contributions by host university:**

- Accommodation & meals
- Local transport
- Miscellaneous local expenses

Value of in-kind volunteer time
